

Personal Study Task

Miracles

Your Task:

Write a **report** on what miracles are, today and in the past, and evaluate the evidence you find.

Remember that a report is **not an essay!** It is used to **describe findings** and **evidence** after having done some research. It includes **sections** or paragraphs on the different parts of the research, and can include **lists, graphs, and diagrams**. It must also talk about which **sources** were used, e.g. books, newspaper articles, internet.

Because you also have to write reports in other subjects, this Personal Study Task helps you to develop skills that are useful in other areas as well.

We Are Learning To:

- know the definition of the word miracle
- understand what's happening when we talk about miracles
- know and retell stories involving miracles
- identify different types of miracles
- find out if miracles still happen today
- express my feelings on why and when and if miracles happen

What I'm Looking For:

- statement which gives a definition of the word
- list of different kinds of miracles
- description of 2 miracles of Jesus
- description and real life miracle from modern times
- explanation, of at least 30 words, clearly giving reasons for miracles happening or being just stories
- I believe... because (at least x2)
